

Micro-Max™

Micronutrient supplement for horses

Micro-Max™ is a highly concentrated source of vitamins and minerals for mature horses. Use Micro-Max to ensure that all vitamin and mineral requirements of mature horses and ponies are satisfied. Micro-Max is ideal for horses that maintain body weight on diets composed entirely of forage or forage and straight cereal grains or small amounts of concentrate.

Features and Benefits

- Provides a low-intake, low-calorie, low-NSC source of vitamins and minerals
- Includes chelated or proteinated minerals for enhanced digestibility
- Fulfills the vitamin and mineral requirements of horses and ponies on all-forage diets or that consume less than the recommended daily amount of fortified feeds
- Supplies yeast culture to enhance digestion of fiber and other nutrients
- Contains natural-source vitamin E
- Features a pelleted, alfalfa-based formula for easy mixing and ready acceptance
- Supports metabolic or special-needs horses, including horses with insulin dysregulation, metabolic syndrome, laminitis, and obesity

Feeding Recommendations

Feed 60–120 g per day to horses or 60 g per day to ponies that consume rations consisting of forage only or those consuming forage and unfortified grains.

For horses and ponies consuming a fortified feed at less than the recommended daily rate, use this product proportionally.

Serving and Container Sizes

Serving Sizes

60 g (pony)

60–120 g (horse)

**Included scoop (90 cc) holds approximately 60 grams*

Container Sizes

Travel Pack (5–10 servings)

4.5 kg (75 servings)

13.6 kg (226 servings)

Guaranteed Analysis

Nutrient	per 120 g
Calcium (min)	3,000 mg
Phosphorus (min)	2,000 mg
Magnesium (min)	1,200 mg
Iodine (min)	1.9 mg
Selenium (min)	1.9 mg
Copper (min)	145 mg
Zinc (min)	440 mg
Manganese (min)	240 mg
Iron (min)	185 mg
Vitamin A (min)	42,290 IU
Vitamin D (min)	4,229 IU
Vitamin E (min)	380 IU
Biotin (min)	0.5 mg
